e-HRMS 2.0

Powering the Future of Governance

One Nation, One HR Portal

कर्मयोगी भारत
लोकहितं मम करणीयम्

Overview

During the quarter April–June 2026, e-HRMS 2.0 achieved milestones in onboarding, training, and feature deployment. With 20.4 lakh+ employees onboarded across multiple ministries and departments integrated and advanced modules rolled out, the platform continues to deliver secure, transparent, and smart HR services nationwide.

support.ehrms-dopt@gov.in 011-43025373 https://e-hrms.gov.in

The e-HRMS 2.0 portal provides an extensive bouquet of services, supporting employees from hiring to retiring, including seamless management of the entire employee lifecycle within a government organization.

https://meet.mgovcloud.in/V0nJxAhpxN

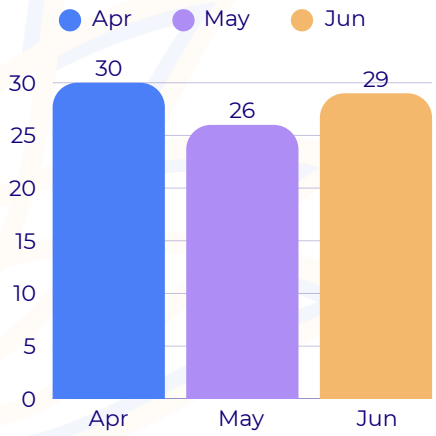
More than 80 structured sessions were conducted across the quarter, complemented by high-level demonstrations, regional outreach, and accessibility-focused engagement with stakeholders.

80+ structured sessions conducted across the quarter.

April: LTC workflow mapping, Vigilance (AVD) role trainings, Workshops for visually impaired users demo at staging .

May: Hands-on sessions on Organogram, Leave Module functionality

June: Reimbursement Module, TA/DA claim Module, LTC workflow training with focus on pushing claims from e-HRMS to PFMS



Number of Sessions conducted across the quarter.

Institutional Outreach:

- e-HRMS 2.0 demonstrations with Rajya Sabha Secretariat, Delhi Police, EPFO Commissioner, My Bharat.
- Regional outreach with Governments of Mizoram, Sikkim and Chhattisgarh, Arunachal Pradesh.
- Accessibility feedback sessions with CSIR.

Delhi Police meeting with special Commissioner of Police (HRD)

Training Session with National Investigation Agency

Role specific Training for Nodal officers of Delhi Police

Session with Ministry of Statistics and Program Implementation

*Photographs published with the consent of the respective Ministries/Departments.

Leave Module

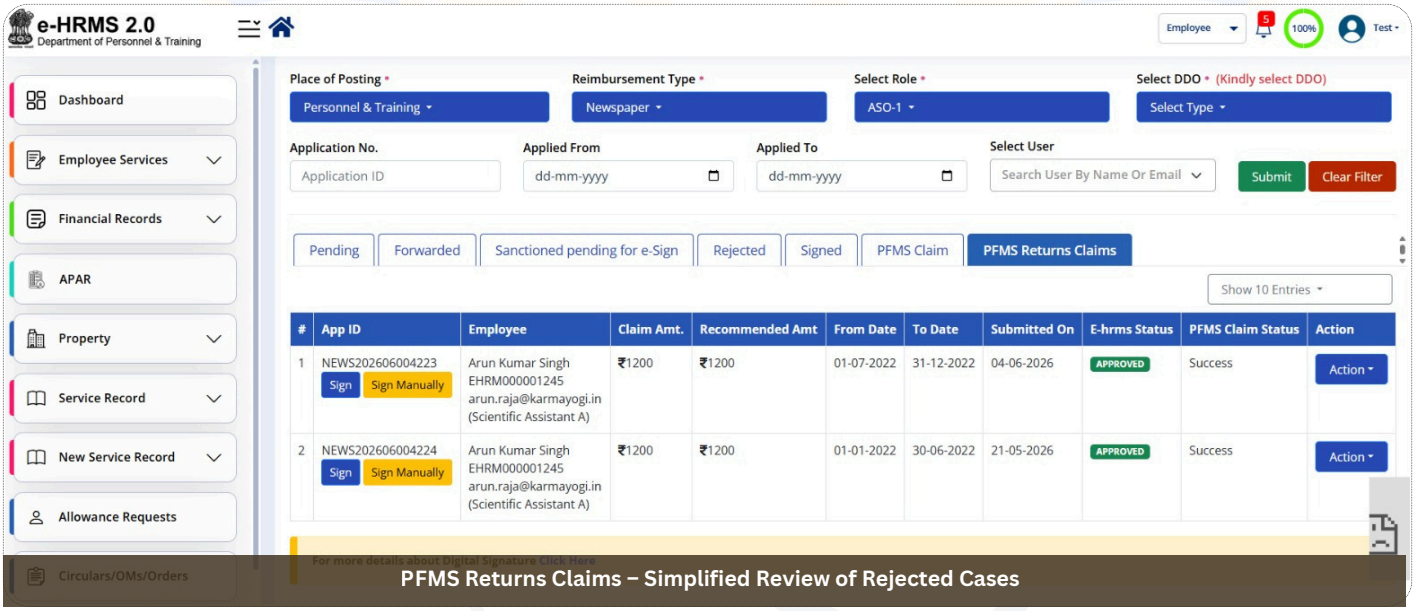
- System corrections for submission of joining report where such report is not required as per rules.
- Complete Leave Statement in a single PDF to see all the yearly leave transactions together
- Enhanced templates with officer details, action dates, and designation filters

LTC Module

Added option to save the form as a draft to prevent repetitive work and save time

Reimbursement Module

- Configured CEA(Child Education Allowance) rules with children's age as per the prescribed rules.
- A new tab is introduced for Issuing officers to check the cases returned from PFMS to return the claims to employees for rectification
- Increasing user convenience by introducing a bulk approval option for Hospitality Claims.



PFMS Returns Claims – Simplified Review of Rejected Cases

Passport Module

- A new Re-submit functionality has been introduced at the employee end, allowing users to modify and re-submit Passport NOC and IC requests that were previously rejected.
- This enhancement eliminates the need to create a new request from scratch, improving user convenience, reducing duplicate entries, and streamlining the overall request resubmission process.

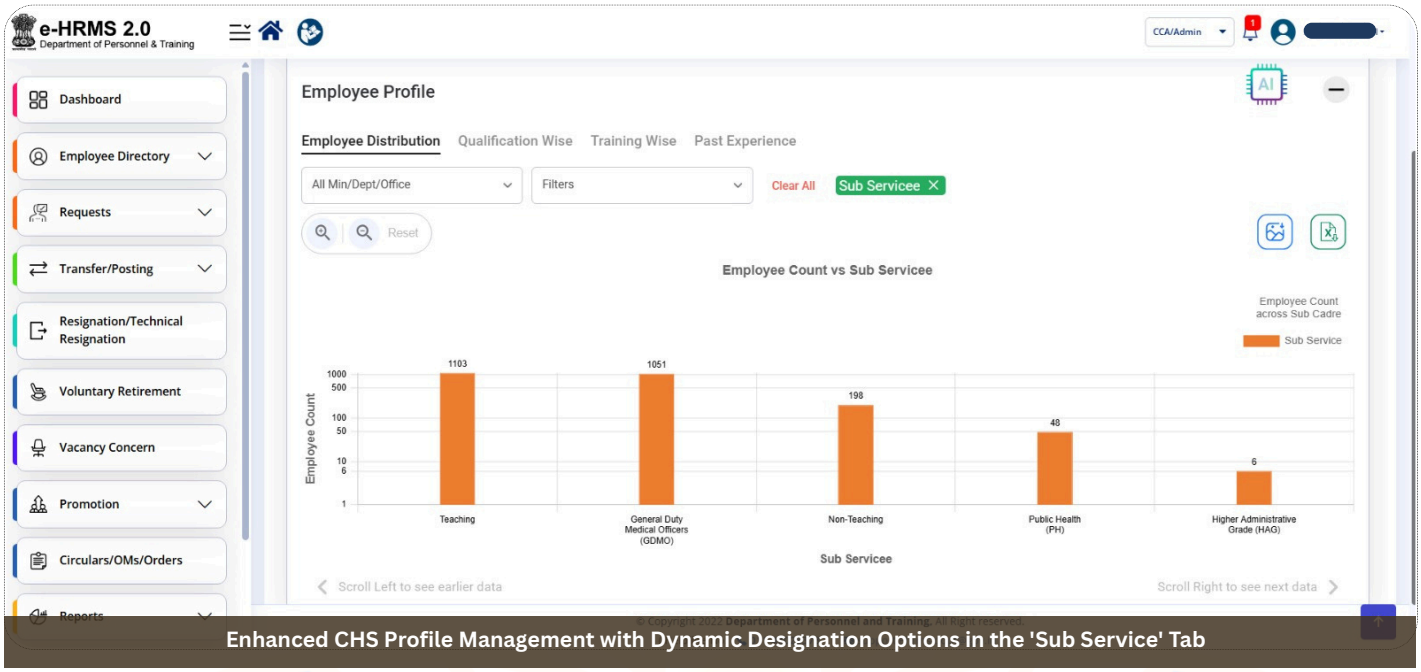
MCTP Module

The MCTP Module on the e-HRMS Portal will digitize end-to-end management of Mid-Career Training Programmes for IAS officers. Integrated with SUPREMO and legacy databases, it will auto-identify eligible officers, enable online registration, and streamline cadre clearance through direct uploads. Configurable timelines via the MCTP Calendar will ensure transparency and time-bound processes. Course Coordinators at LBSNAA can mark attendance online, and digital certificates will be issued upon completion. The module enhances efficiency, accountability, and creates a single source of truth for all MCTP activities.

Integrations and Customisations

Customisations for Central Health Services

- The profile section for Central Health Services has been customised for more accurate employee data management
- The profile customisation feature includes a sub-service dropdown based on CHS service, followed by a designation dropdown that dynamically populates according to the selected sub-service.
- In addition, the reporting module supports configurable filters such as MDO, Nodal office, sub-service, pay level, and specialisation, enabling precise reporting and improved data visibility



Enhanced CHS Profile Management with Dynamic Designation Options in the 'Sub Service' Tab

Samarth Integration

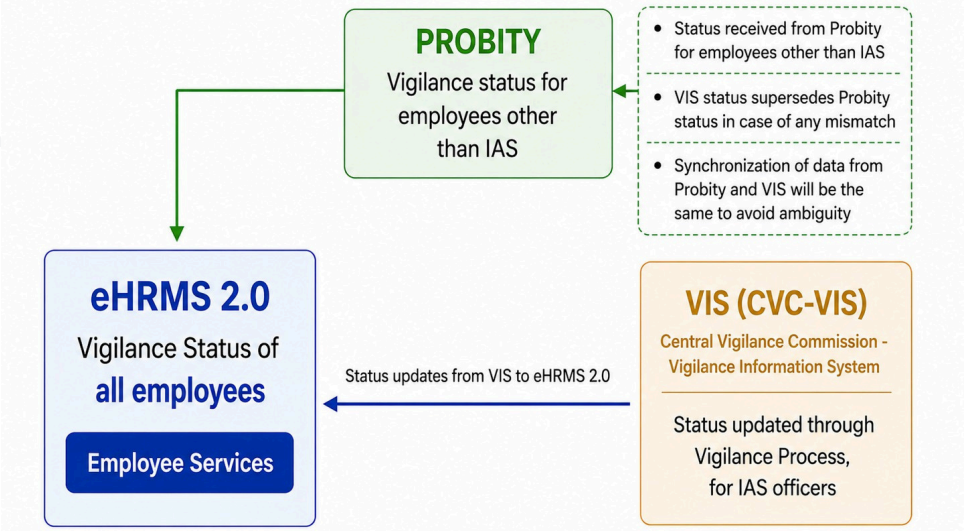
- e-HRMS is now integrated with Samarth ERP for seamless data exchange and improved employee services.
- Employees can fetch their payslips from Samarth ERP directly in the e-HRMS portal without logging into multiple systems.
- GPF details and GPF ledger download options will be available soon

CGHS Integration

- Phase I of CGHS e-HRMS 2.0 integration successfully made live.
- Users can download CGHS cards for self and dependents in e-HRMS 2.0 without visiting a separate portal.
- End-to-end online CGHS services, including new card application, family member management, and request for card updation will be available soon.

Integration of e-HRMS with VIS (Vigilance Information System) of CVC

- e-HRMS 2.0 is now integrated with the Vigilance Information System (VIS) for IAS Officers.
- Near real-time synchronisation of vigilance status ensures accurate and up-to-date information.
- Reduced manual intervention results in faster processing and improved administrative efficiency.
- Secure and transparent access to vigilance information enables timely decision-making and better employee service delivery.



Ongoing Enhancements & Future Goals

01 — Leadership Dashboard
Consolidated monitoring of ministry-wise usage for senior leadership.

02 — Cadre Review Module
Cadre Review Module for Central Group 'A' Services is under development pipeline

03 — Private Foreign Visit Module
Enhanced workflow routing.

04 — Better User Experience
Accessibility improvements for visually impaired users.

05 — Link Officer Functionality
Assign Link Officers to ensure leave approval workflows during the leave period of designated authorities.

06 — Reimbursement
Medical reimbursement integration with PFMS in progress.

Proposed Integrations and Developments

Sampann Integration

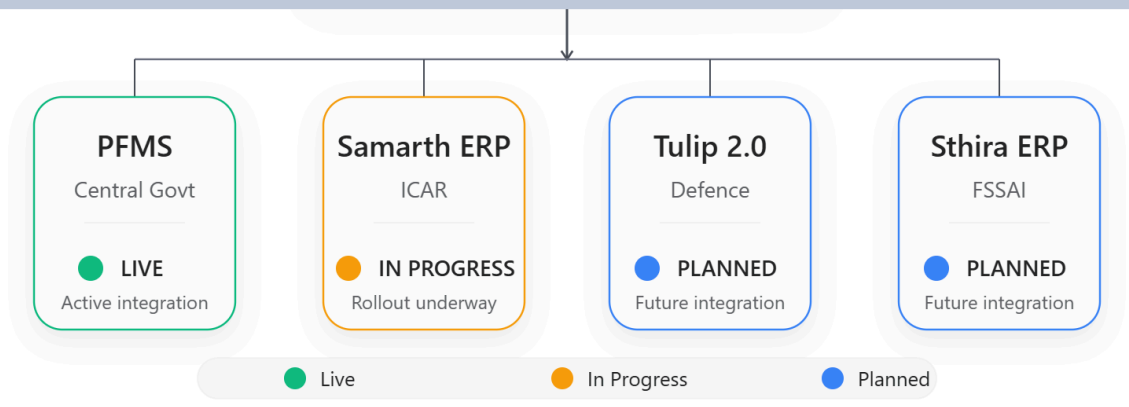
- e-HRMS 2.0 will be integrated with the Sampann Pension System for seamless pension processing in the Department of Telecommunications (DoT).
- Employees can fill and submit Pension Form 6A directly through the e-HRMS portal.
- Employee details and Form 6A are securely shared with Sampann, eliminating duplicate data entry and reducing manual effort.

Bhashini Integration

- Proposed integration of e-HRMS 2.0 with Bhashini to enable multilingual support across the portal.
- Employees will be able to access e-HRMS services in multiple Indian languages, making the platform more inclusive and user-friendly.
- The integration will reduce language barriers, helping employees navigate and use services with greater ease.

e-HRMS 2.0 Payroll Integration

Single platform connecting government and enterprise HR systems



Conclusion

The April–June 2026 quarter highlights e-HRMS 2.0's rapid evolution from module-specific workflows to structured operational deployment. By integrating financial systems, strengthening compliance, and digitizing HR processes, the platform is setting new benchmarks for transparency, inclusivity, and efficiency in public administration.

e-HRMS Course on iGOT

Course Name : Nodal Officer Functions and Workflows in e-HRMS 2.0

Course equips Nodal Officers with the knowledge and skills to effectively manage employee records and HR workflows on e-HRMS 2.0, the Government of India's unified platform for HR service delivery. It covers profile verification, leave and transfer management, retirement and resignation processing, reimbursement and LTC claims, and end-to-end approval workflows — ensuring accurate, compliant, and timely HR service administration.
